### Disclaimer

#### Use of Non-GAAP Financial Measures

Use of Non-GAAP Financial Measures This presentiation includes non-GAAP financial measures. TWC II and Cellebrite believe that these non-GAAP measures are useful to investors for two principal reasons. First, they believe these measures may assist investors in comparing performance over various reporting periods on a consistent basis by removing from operating results the impact of items that do not reflect core operating performance. Second, these measures are used by Cellebrite's management to assess its performance. TWC II and Cellebrite believe that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends. These non-GAAP measures should not be considered in isolation from, or as an alternative too, financial measures determined in accordance with GAAP. Other companies may calculate these non-GAAP financial measures differently, and therefore such financial measures may not be directly comparable to similarly titled measures of other companies. In addition, such information and data may not be included in, may be adjusted in or may be presented differently in any proxy statement or registration statement to be filed by TWC II with the SEC. A reconciliation of certain of these non-GAAP financial measures to their most comparable GAAP measure is set forth in a table included at the end of this presented inferently.

# Cellebrite empowers the world's leading government agencies and enterprises

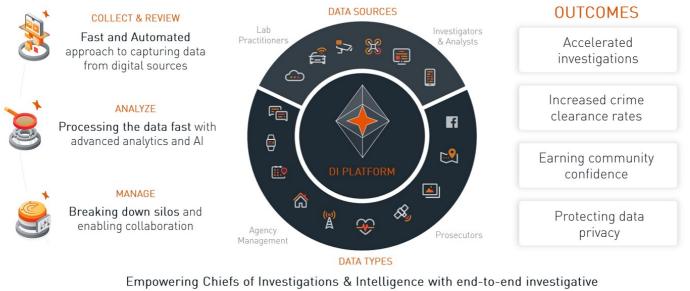

### Investigations today are manual, slow, and siloed

#### Loss of critical evidence, slow time-to-insight and inefficient cross department collaboration

Criminal cases are solved inefficiently or not solved at all

### Cellebrite delivers a comprehensive DI software platform

platform

### Collect & Review solution overview

Value Proposition: Capture critical investigative data from digital sources

### **Key Functions**

Extract, decode and review data from the most digital sources

- + Unlock / bypass security
- + Apps, locations, media, messaging

#### **Key Benefits**

- + Deep & thorough extraction of evidentiary data
- + Broadest range of device & profile support
- Unsurpassed decoding
- + Powerful review

#### Growth Vectors

Cross-sell / upsell new and expanded offerings: Premium, Remote Collection

#### Target users

Examiner, Investigator

#### Example Digital Sources

Smartphones, Laptops, Memory sticks, GPS devices, Cloud & Social Media, Vehicles, Drones

Collect & Review

Analyze Cellebrite's DI Platform

### Analyze solution overview

Value Proposition: Automates and accelerates analysis of investigative data and the delivery of insights

#### **Key Functions**

- AI-based investigative analytics solutions help investigative teams fuse and enrich data:
  - + Enables seamless automation of analysis
  - Accelerates data management and delivery of insights
  - Provides visualization of suspect journey
- Recent introductions to Analyze portfolio:
  - Enterprise-grade functionality updates, enhanced UX/AI

#### **Key Benefits**

- + Expedites time-to-evidence in investigations
- Automatically surfaces formatives leads and actionable insights
- + Accelerates time-to-evidence by up to 30x

#### **Growth Vectors**

Upsell existing offering (Pathfinder) to customer base / new buying centers

Extension of Investigative Analytics offerings (SaaS, Crypto, Early Case Assessment)

#### Target users

Examiner, Investigator, Analyst

В

#### ollect & Review Analyze Manage Cellebrite's DI Platform

### Manage solution overview

Value Proposition: Provides orchestration of investigative workflows

### **Key Functions**

- Manage deployment & utilization of solutions
- + Define and enforce permissions & access control
- Store and share investigative data
- Oversight dashboards

#### Key Benefits

- Saves time and cuts operational costs
- + Provides operational visibility & control

#### Growth Vectors

Expand within existing customer base of leading public safety agencies

#### Target users

Investigation administrator, Agency management

Collect & Review	Analyze	Manage
	Cellebrite's DI Platform	

### A platform for delivering social good

### Cellebrite is a powerful platform...

...making sure it's used appropriately is of paramount importance to our mission

#### Corporate policies & governance

- Monitoring and policy administration conducted by inhouse compliance and outside counsel
- Board-level oversight by ethics committee
- Prioritize a human-rights based approach

#### Regulatory adherence

- Strict adherence to all relevant Israeli, US and E.U. regulations and controls
- Information systems proactively restrict engagement with sanctioned companies and banned countries

#### Built-in technology controls

- Platform designed to protect privacy and prevent misuse
   of IP
- Products provide for termination of license and/or blocking software updates in case of misuse

#### Contractual conditions

- Contracts address ethics, privacy and human rights
- Legally-sanctioned investigations only, geographically limited
- Customers are strictly prohibited from reselling to unidentified end customers

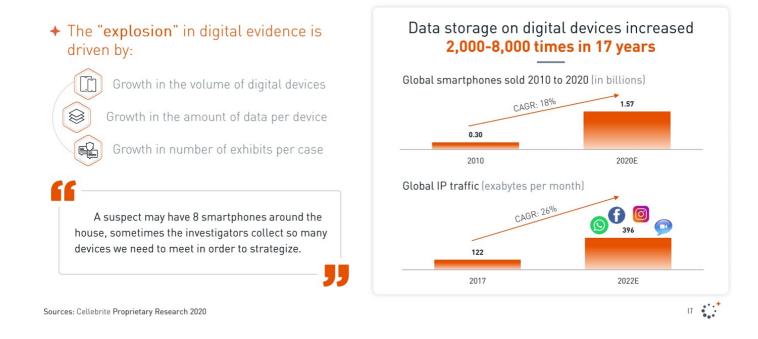

### Cellebrite

### Table of contents

### Digital evidence is rapidly proliferating

### Explosion in digital evidence is transforming public safety

Digital evidence plays a critical role in the judicial system

Digital transformation in public safety is complex and leads to resources / capabilities being pushed to the field

Transformation starts at large agencies and gradually expands towards medium and small agencies

**If** We use UFED in 100% of our homicide cases.

– Head of Homicide Dept. (major Federal agency)

### **60-70%**

Medium and large agencies<sup>1</sup> have acquired some type of investigative analytics system

#### 5%

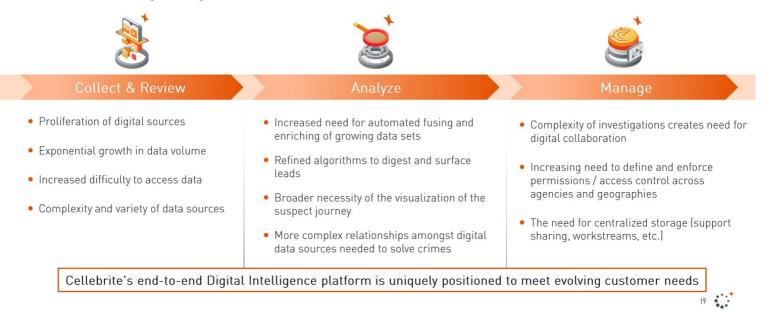

Analytical potential utilized by medium and large  ${\rm agencies}^1$

Cellebrite delivers the capabilities to solve more cases with less resources, unlocking a massive social benefit to communities dealing with serious and pervasive crimes

<sup>1</sup> Refers only to serious crimes in which DI tools are absolutely relevant and necessary, such as homicides, drug trafficking, kidnapping, etc. Cellebrite tools are also utilized in many other cases.
<sup>2</sup> Based on customer feedback.

#### Proven land-and-expand upsell motion

Note: Cellebrite currently offers a total of 13 solutions (excluding additional services).

# Deep cache of active zero-day exploits allows differentiated access across device ecosystem

- Proven, consistent track record of enabling access to encrypted devices over the past 10 years
- Systematized ability to generate useful research assets or "zero-day exploits" to enable device access
- 5x increase in research assets generated annually over the past 6 years
- Clear path forward to continue generating access methods with visibility for the next 3-5 years
- Cellebrite's unique systematized research approach specializes in generating durable assets as compared to other methods
- World class talent from elite intelligence units (8200)

#### Definitions

- 1. Annual Recurring Revenue: Annual recurring revenue ("ARR") is defined as the annualized value of active term-based subscription license contracts and maintenance contracts related to perpetual licenses in effect at the end of that period. Subscription license contracts and maintenance for perpetual license contracts are annualized by multiplying the last 3 months relevant recurring revenue of the period by 4.
- 2. Subscription Revenue: Is defined as revenue from recurring, term-based license contracts and ongoing services related to core offerings. Subscription revenue is recognized ratably over the subscription term with a portion of revenue, related to the term-based license, recognized upfront.
- 3. Net Retention: Dollar-based net retention rate is calculated by dividing customer recurring revenue by base revenue. We define base revenue as recurring revenue we recognized from all customers with a valid license at the last quarter of the previous year period, during the four quarters ended one year prior to the date of measurement. We define our customer revenue as the recurring revenue we recognized during the four quarters ended on the date of measurement from the same customer base included in our measure of base revenue, including recurring revenue resulting from additional sales to those customers.
- 4. Gross Retention: Gross revenue retention is calculated by dividing customer revenue excluding upsells by base revenue. We define base revenue as revenue we recognize from all customers in the last quarter of the previous year period, during the four quarters ended one year prior to the date of measurement. We define customer revenue excluding upsells as the revenue we recognize during the four quarters ended on the date of measurement from the same customer base included in our measure of base revenue, excluding upsells / cross-sells. The measure captures the weighted average dollar loss versus 100% from the customer base.
